

Professional Summary

Artificial Intelligence undergraduate with hands-on experience in **Python, C++, Java, SQL**, and **database systems**. Possess good problem-solving skills and a strong understanding of core programming concepts. Actively learning and building projects to prepare for real-world software development roles.

Education

• BTech(AI) GH Rasoni College of Engineering, Nagpur	2027 8.65 CGPA
• Diploma Gramin Technical and Management Campus, Nanded	2023 83.80%
• SSC Late. Laxmanrao Patil Hassekar Secondary School, Laglood	2021 90.40%

Academic Projects

Online Examination System with Anti-Cheating | **Java, SQL, Database** (3 members)

3 months

- Developed a secure online examination system with automated exam creation, submission, and evaluation.
- Implemented anti-cheating features such as tab-switch detection and activity monitoring.
- Designed a SQL database to manage users, questions, responses, and results.
- Ensured data integrity and exam security using validation and session management.

Temperature and Pulse Rate Detection System | **Arduino C/C++** (2 members)

1 month

- Built an Arduino-based IoT system to monitor pulse rate and temperature using heart rate sensors.
- Processed real-time sensor data with latency under ~2 seconds.
- Improved data reliability through sensor calibration and continuous monitoring logic.

Internships

Intern | **Dream Webies**

1.5 month

- Developed mobile applications using **Flutter and Dart**
- Designed responsive UI and integrated APIs
- Worked on debugging, testing, and feature implementation

Technical Skills

- **Programming:** Python | Java | C | C++
- **Data & Databases:** SQL | Data Analysis (Basics) | Data Processing
- **Libraries & Tools:** OpenCV | NumPy | DeepFace | FER | Git | GitHub | Arduino IDE
- **Core CS Concepts:** Object-Oriented Programming | Data Structures & Algorithms | Problem Solving

Academic Records

- Successfully completed B.Tech coursework up to 5 semesters in Artificial Intelligence.
- Maintained consistent academic performance throughout the program.
- Strong understanding of core subject such as Programming, Data Structure, and AI fundamentals

Certifications

- Spoken tutorial IIT Bombay-Python Certificate- [Link](#)
- Spoken tutorial IIT Bombay-C Certificate - [Link](#)
- Spoken tutorial IIT Bombay-Cpp Certificate - [Link](#)
- PHP and MySQL Training-EduPyramids- [Link](#)
